INFO - LETTER

NO. 18

June 2009

Content

- 1. General**
- 2. Changes in our Worldwide Nomenclature**

1. General

Please be so kind to distribute this Info - Letter within your organisation as you see fit.

2. Changes in our Worldwide Nomenclature

Our type range as well as resin variety was increasing significantly over the last few years.

This increase led to a shortage of available numbers as well as letters for our polymer systems and therefore we have now to take action to renew some parts of our nomenclature.

This modification is not a dramatical change but gives us some release to be furtherly creative with new types and resins.

The future base for typenumbers is as follows:

- | | |
|------------|---|
| 9** | Polyester but only PET Types |
| 8** | Polyamides and various Polymers |
| 7** | Bicomponent Monofilaments |
| 6** | Elastomeric Polyester and non PET Polyester |
| 5** | Polyolefine Tape with high strength |

This led to a change especially in the PBT and PEN based resin types:

936B changes to **636B (PBT)**

986B changes to **686B (PBT)**

910B changes to **610B (PBT)**

929P changes to **629P (PEN)**

The changes in the polymer letters are just few, as shown below:

9F** changes to **9**CF** **all plants**

9L** changes to **9**CE** **all plants**

9IP** changes to **9**IF** **TMUS**

9CP** changes to **9**CF** **TMUS**

7LQ** changes to **7**HQ** **TMUS**

Please be informed that we modified only the name of the products; the technical data and properties will remain the same. The colour codes of the labels will remain unchanged, too.

Attached please find a comparison table (Available types from Teijin plants – 2009) showing the old and new product names.

In case a change happened, we marked the modified name with green cell background.

Additional in this table there is some information which standard diameter range is supplied within the individuell types and which application fields are being covered.

We will start with the modified nomenclature by July 1st 2009.

Orders being entered after June 15th will be already booked and confirmed with the new name.

If you have any questions concerning the above information, please don't hesitate to contact us.
